

FACES OF LODO

LODO THE RICHER FOR TERRI HOOPES

Behind the scenes and very much on the scene, Terri Hoopes has been looking after the welfare of the LoDo District since 1996. As a contract accountant, Terri kept a hawk's-eye on the financial affairs of the organization during flush times and lean, providing both tax and accounting services. She ushered our technologically challenged office into the computer age in 1996 and didn't stop there.

Hardly a LoDo event or fund-raiser has occurred during the last ten years without the involvement of this dedicated and hard-working supporter. If a poll were taken, it might show that Terri, as a volunteer and member, has sold tickets and checked in attendees at more LoDo events than anyone else. She has served on the Membership and Events Committees and was Project Manager for the Denver Union Station Paver Program.

After working with six Executive Directors and a large cast of Board Members, Terri is retiring. The financial reins of the organization will pass on to other competent advisors, but it is doubtful that her quiet, thoughtful and dogged commitment to our organization and our neighborhood will be surpassed any time soon.
